

L'ENFANT PLAZA PROPERTIES, INC.

January 8, 2004

WFT Engineering, Inc.
6001 Montrose Road – Suite 402
Rockville, Maryland 20852

To Whom It May Concern:

On behalf of L'Enfant Plaza Properties, Inc., I would like to personally commend WFT Engineering, Inc. for their outstanding performance in the management of engineering services, design and construction administration provided for an extremely complex cooling tower replacement project in the East Building at L'Enfant Plaza.

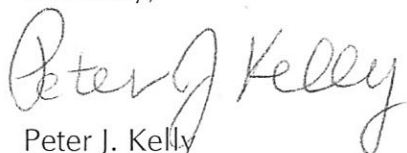

Without the services provided by Paul Hitte and Reardon Sullivan and their staff, this project would have been an overwhelming task.

This one million dollar project entailed removal and replacement of a 3,000 ton cooling on the roof of the 12 story East building. This project was completed directly above the 370 room Hotel without disturbing any guests. Most important the project was completed on time and on budget.

I would highly recommend WFT Engineering to provide professional, efficient and timely management of engineering and design services for any construction project requiring detail and creative solutions to be accomplished within short time frames and tight budgets.

Please contact me personally if you have any questions concerning the project and services that were performed here at L'Enfant Plaza.

Sincerely,

Peter J. Kelly
Senior Vice President
