Re: A Job Well Done

Dear Jack:

As we now break ground on the Addition to the Inn and Conference Center at University of Maryland University College, let me congratulate WFT for their contribution to the project. The design team experienced some of the toughest deadlines that I have seen on a project of this size. WFT did an excellent job working under the pressure of the deadlines, and your team was always available to work through difficult design issues.

Darrell Williams was one of the most conscientious project engineers with whom I have worked, and his leadership helped the team identify and work through important engineering issues before they became obstacles to the design process.

OPX appreciates the hard work of the entire WFT project team, and we are looking forward to our next project together.

Sincerely yours,

Peyton Pond
Architect
Senior Associate
